LOS ANGELES RIVER GREENWAY TRAIL

Coldwater Canyon Ave to Whitsett Ave, San Fernando Valley

Creating Public Access and Restoring Natural Habitat

Existing Conditions

The L.A. River Greenway Trail will:

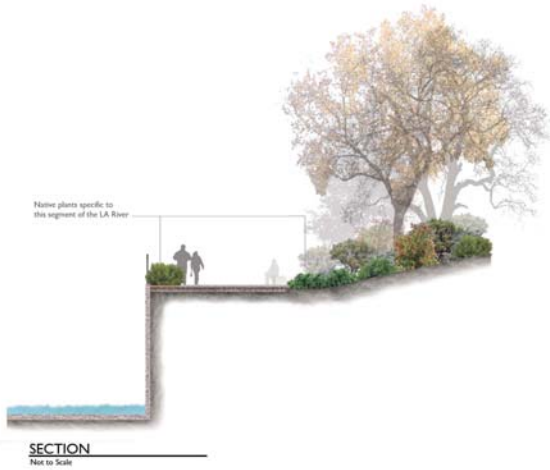

- **Bridge the Gap**
 Create over five miles of continuous trail from Laurel Canyon to Fulton Ave by linking existing trail segments
- **Create Public Access**
 Open this currently closed section of the L.A. River to the public
- **Restore Native Habitat**
 Plant over 4,000 native trees, shrubs and plants

Providing Public Access to the L.A. River

- Create half-mile walking trail to bridge the gap between existing trail segments
- Install public gates and ADA-compliant public access ramp
- Link to 391-car public garage located on the river
- Link to public transit via adjacent bus stop and Metro station within biking distance
- Install river viewing and shaded seating area

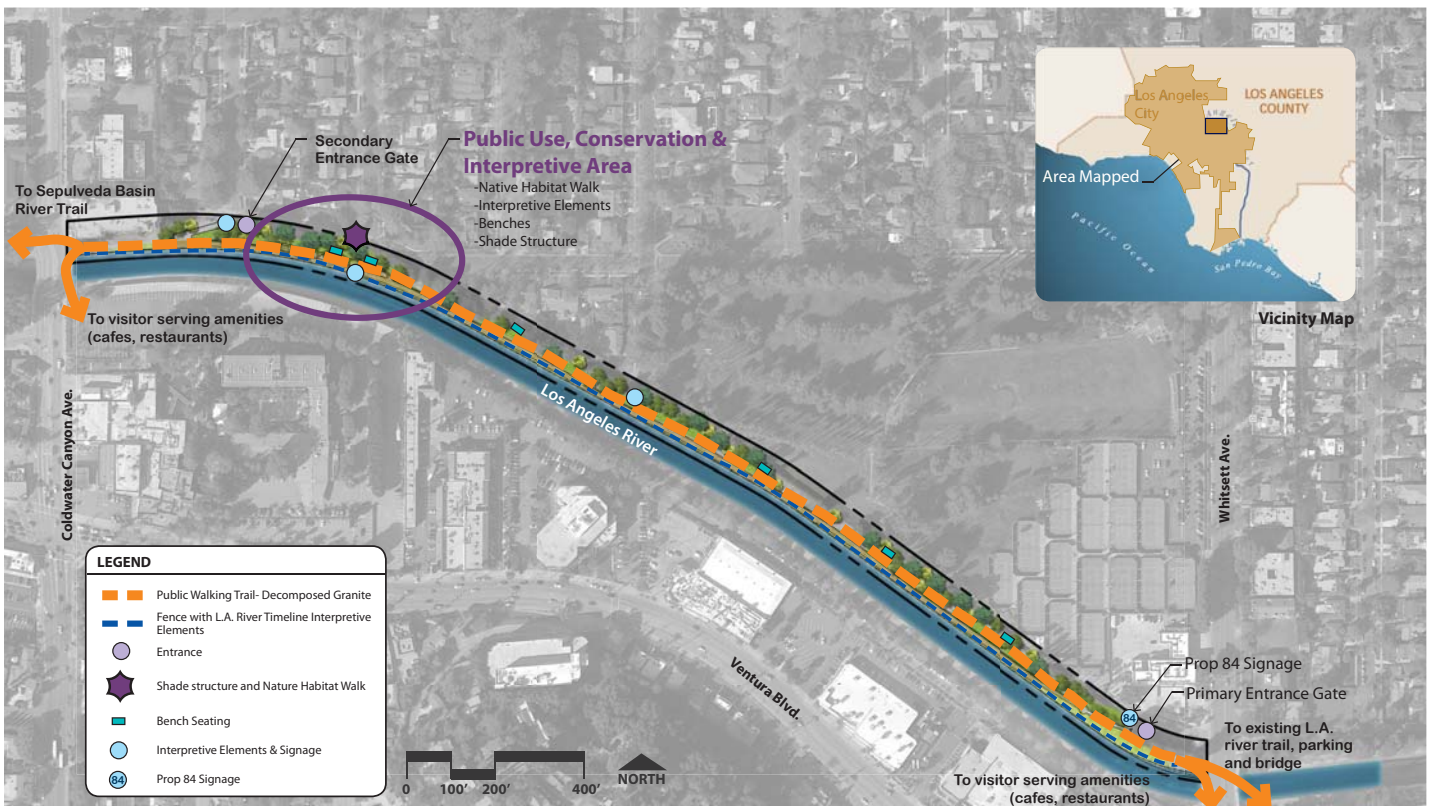

Graphic Illustration—Overall

Restoring Natural Habitat

- Restore a native ecosystem of oak woodland, chaparral and mixed scrub
- Plant over 4,000 native trees, shrubs, and plants
- Remove old, non-native trees
- Improve water quality by establishing a native forest with extensive root systems
- Create an interpretive native habitat walk
